

HYUNDAI
Drive your way™

Safety first, last, and always.

Nicely equipped, under \$20,000*. With Sonata, our safety standards are quite clear. As in 6 airbags, standard; Electronic Stability Control, standard; ABS and active front head restraints – all standard. And of course it also comes with America's Best Warranty.** So in the end, you're not only equipped to avoid trouble, you're protected from it just in case. **HyundaiUSA.com**

A Hyundai like you've never seen before.

S O N A T A

*MSRP. Excludes destination charge. **Hyundai Advantage™. See dealer for details. Hyundai and Hyundai model names are registered trademarks of Hyundai Motor America. All rights reserved. ©2006 Hyundai Motor America.

Planning for catastrophes is *positive thinking*.

NOT DOING SO IS A DISASTER.

It takes time, money, and imagining the unimaginable. But if we don't do it now, we'll regret it later. Here are a few steps we can take to better prepare and protect America:

1. BETTER UNDERSTAND THE

GROWING RISKS. More people are moving into areas that are at higher risk for natural disasters. And many who do, choose not to buy the additional protection they may need.

2. BUILD SMARTER AND

STRONGER. In some parts of the country, building codes aren't strong enough to make buildings withstand the catastrophes that are likely to occur.

3. CREATE CATASTROPHE FUNDS.

The public and private sectors must work together to create a financial backstop program that can give consumers more protection at lower cost.

The worst thing we can do is nothing. Become part of the solution now at www.protectingamerica.org.

America deserves to be better protected.
THAT'S ALLSTATE'S STAND

How far do we have to go for pure water? Pick an ocean.

The world's economic engine runs on high-purity water for industrial processes and power generation. FILMTEC™ membranes from Dow make it possible to get high-purity water from a wide range of increasingly impure or otherwise unusable sources – seawater, recycled wastewater, brackish water, and water contaminated with urban pollutants. And Dow continues to develop membrane technology, making it increasingly affordable to squeeze more pure water from dwindling resources. It's possible to have the highest quality water at the lowest total cost. All we need is the right chemistry.

**IF HEP C WAS ATTACKING
YOUR FACE INSTEAD OF
YOUR LIVER, YOU'D DO
SOMETHING ABOUT IT.**

READY TO FIGHT BACK?

YOU'LL NEVER BE STRONGER THAN YOU ARE TODAY TO STOP THE DAMAGE HEP C IS DOING TO YOUR LIVER. Talk to your doctor now about prescription treatment. Patients in clinical studies overall had a better than 50% chance of reducing the Hep C virus to undetectable levels. Response to treatment may vary based on individual factors. So log on or call, then talk to your doctor to find out if treatment is right for you. And help put Hep C behind you.

Devin McGrath
Peace Corps – Bulgaria
Bentley '04, BS Management

How Bentley turned Devin's passion for adventure into the business of life.

Armed with a management degree from Bentley, extensive leadership experience and a passion for adventure, Devin was ready to make a difference in the world. So he joined the Peace Corps as an economic development volunteer in Bulgaria. Today, Devin is putting the advanced business training and critical thinking skills he gained at Bentley to good use in the small community of Berkovitsa. In fact, he's already made an impact by helping to start a business cooperative for local artisans. Because of the solid grounding in cultural literacy, social responsibility and business technology he received at Bentley, Devin is well prepared to pursue his passion in the world of business...and to succeed in the business of life. To learn more about what Bentley has to offer, contact us today.
